

KASHMIR SOLIDARITY DAY

NED University of Engineering & Technology Karachi held a Seminar titled “*UNDERSTANDING THE KASHMIR CHALLENGE*”, to commemorate the efforts of Kashmiri People of occupied Kashmir. Faculty and other Officers joined the event.

Kashmir is an unfinished agenda of the partition of Indo-Pak Subcontinent. Due to its geo-strategic considerations, it has remained an unresolved issue between India, Pakistan and China. Pakistani nation and people always lay a legally and morally justified claim on Kashmir as an integral part of the country. The important dates, such as 5th February are commemorated every year. Yet there remains a need to update our understanding and knowledge related to Kashmir, its significance in Indo-Pak Subcontinent and the larger region. The policies and strategic steps taken by governments and other stakeholders also require an impartial approach for positioning our opinions, activities and follow-ups. The present seminar is a step in this direction.

Date & Venue: Thursday, February 1st 2024, NED University of Engineering & Technology
Guest of Honor: Mr. Muhammad Omer Soomro, Caretaker Minister for Law, Religious Affairs and Human Rights, Government of Sindh
